

First let me say this, “ I have never posted anything on Facebook or instagram more than 25 words.” But I am about to!

A dear and valued friend has just published a book titled “**One Hit Wonder**” oh is it ever a great read. The Author is Kevin R. Kehoe. I think he is the 21st Century incarnate of Will Rogers. The pages just flow, it is a one character chronicle of events and experiences of his life after which he values that event.

The book spans the time of immigration by his Grand parents thru their lives and his life. This writing touches us all in the heart allowing us to share with him his life. Up and down! I am certain that you will find yourself touched often times, smiling, laughing and maybe with a little tear.

I closed the book the other day, but it's not finished. You will go back a reread chapters to have that experience once more. Be sure to pass it on to your children and grandchildren because it is an excellent text book for experiencing a LIFE!

“Optimism is the faith that leads to achievement. Nothing can be done without hope and confidence.

John Fontana
